

CHARITY COMPASSION COIN: WHITEPAPER

The Vision

Prepared for: International Governments, Communities, Individuals

Prepared by: Kin Kendall, Creator, Founder And Sole Proprietor.

Charity Compassion Coin succeeds and solves the ability of billions of dollars constantly moving globally as secured humanitarian relief funds, in the un-hackable blockchain ecosystem.

NATIONAL AND INTERNATIONAL GOVERNMENTS

Bringing together the unity of national government needing to at any immediate moment, move any fiat type currency, onto the blockchain as Charity Compassion Coins. Encrypted historical accounts of these transactions are forever traceable into an un-hackable blockchain vault wallet, then sent directly to address any humanitarian crisis', immediately anywhere in the world.

For the first time an ability of billions of dollars constantly moving as secured humanitarian relief funds with blockchain technology. National security among fiat monies becomes the highest importance, needing the highest privacy level of this sensitive data and encrypted funds.

Protocol among top secret privacy is priority in any global crisis', involving relief funding from world powers. With blockchain the fear of acts of physical or cyber terrorism occurring to humanitarian relief funds being received is diminished.

This further connects along with aid worker's safety working with encrypted currency, than direct coin or paper monies while stationed in potentially hostile world environments, setting a tougher ability for compromising these funds protected by privacy keys, and fully traceable.

CELEBRITIES

Calling All Celebrities: Get Involved

Are you passionate about what we're doing?

The truest philanthropy enabler, Charity Compassion Coin enables the entirety of your vision to be fully fruition'd into reality. Beginning here at your charitable funded idea we enter on to the blockchain. We're excited to have you join the team!

"Complete privacy means no outside personal data obtaining or unwanted identity breaches. This solves to end selling consumer informations and identities."

Integrate with the GIVE Ecosystem Foundation.

Charity Compassion Coin's GIVE project builder, always seeks to succeed for charitable celebrities and high profile individuals. Experience how the blockchain ecosystem truly helps societies solving question of secure, immediate, humanitarian aid. Here among this giving space, charitable projects to envision and build upon, integrates yourself as a newly minted GIVE celebrity.

Whether your an actor, director, national/global performing artist, with CCC you will succeed your next miracle, keeping the most important needs and life of the world alive. Securely and directly with asset security and protection of privacy always.

“Through the websites direct inquiry hub for celebrity investors to utilize Charity Compassion Coin (CCC) as a pocket outlet of securely succeeding in your charitable project creation, is easy and transparent!” Your funding investments of charitable giving becomes appropriated to its needed destination anywhere in the world. All securely through the technology of blockchain and smart contracts to ensure encryption and un-hackable ledger to move your actual investment funds. You know exactly where your charitable project investment is at any moment, from start of project creation all the way to the finish. The genesis of a world of trusted source, that all of your donation has been allocated appropriately and fully.

Three Fully Transparent Steps:

1. Starts from your heart felt compassionate vision of giving.
2. Secure your project investment onto the blockchain to be appropriated anywhere needed in the world in the form of Charity Compassion Coin (CCC).
3. Charity Compassion Coin (CCC) is then securely transferred into the needed localized fiat currency type, to fund the needed giving anywhere in the world.

Whether from Bitcoin, Litecoin, Ethereum, USD, EUR etc, into Charity Compassion Coin escrow holding, these fundings are then transferred directly back into the fiat type of payment needed in relation to the location anywhere globally.

Ensuring 100% of your Charity Compassion Coin project is being succeeded.

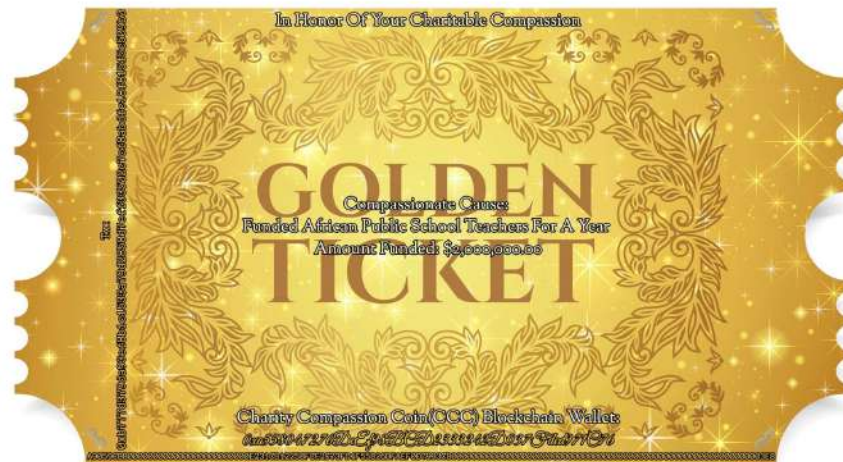

A Compassionate Welcome Into Our Family

The CCC creator and principal overseer Kin and his family securely travel as missionaries globally overseeing all of these project expectations are being met through the correct appropriation of distributed charitable funds, directly to the project cause, no matter where or when.

Kin during most of his life has been traveling globally, integrated into the bareness of the world. He has learned the potential of how just a little giving today can change the world being a better place tomorrow.

LOCAL COMMUNITIES

Local Communities GIVE Builder

Community

Community health and wellness is the root to global connectivity of compassionate hearts and minds together. Starting from the self and scaling up, you as an individual truly can give back within your community to build a stronger self and a stronger world altogether. You as an individual can feel healthy and happy that you have compassion'd yourself to better your locality, further influencing even your neighboring localities to join in their own ways also.

Envision

Together we start from your heart felt compassionate vision of giving. Secure your project investment onto the blockchain to be appropriated in the form of Charity Compassion Coin's side currency: GIVES. With the power of Charity Compassion Coin's "GIVES" currency, an entire ecosystem functioning together of likeminded, charitable, local community based projects, is possible up to the tune of over four trillion dollars, globally moving together.

Ensuring stabilized and un-hackable fund building and giving to each and every communities charitable needs, GIVES will see to help raise secure funding of your personal vision to life of a better community. Wether it be your town/city/regional school classrooms, food pantries, nature cleanups, or any kosher helping aspect, we are right there with you always through blockchain technology.

Raise The GIVE Project Funding

Once we have worked together in your idea and GIVE Build project startup, we build you a public digital GIVE profile wallet link and digital donate button for your local community members to seamlessly and securely donate any amounts directly through money currency and into blockchain technology security as GIVES.

Once your needed charitable project is funded to your capital needs, the funds are released to begin your project becoming into fruition and success.

Keeping Trust Always Between You And Your Donators

Opt for us to do all the legwork of directing GIVES secured from your fundraising monies into direct physical supplies, such as classroom necessities to an underfunded school, more food in non profit food pantries, or cleanup supplies to a nature conservation project, blockchain technology ensures trust and protection of the charitable project always succeeding. Whether Bitcoin, Litecoin, Ethereum, USD, EUR or any global currency type, the charitable capital is then secured into Charity Compassion Coin's escrow holdings, always viewable on the blockchain publicly by yourself and any of your donators.

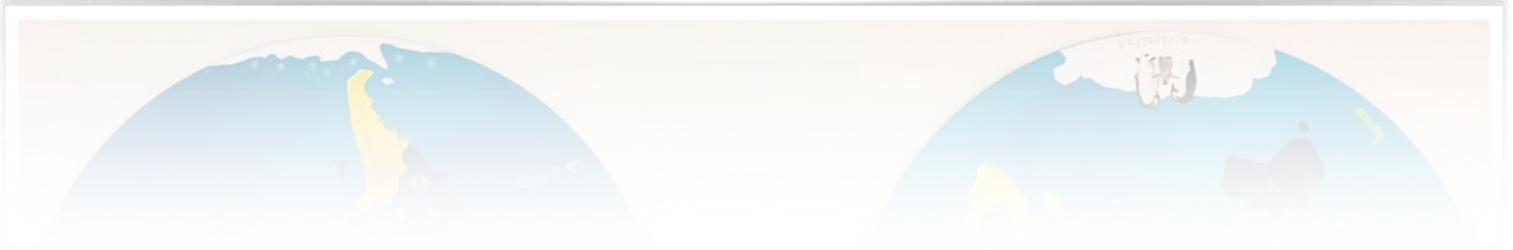

Your GIVE Build capital totals are then transferred directly into payment or supplies in relation to the location of the needed GIVE project being built and succeeded no matter what currency type or physical charitable supplies needed.

Success

Charity Compassion Coin finalizes the GIVES donated project funding you have raised through your community space. Together we securely transfer into the needed localized currency and or physical supplies, to fund directly your GIVE Build Project needed amount. From your community members donated funded contributions or even other cryptocurrencies if need be, we accept and work with succeeding the main goal, the charitable project succeeding overall start to finish.

GIVE TO WORLD REGIONS

World Regions GIVE Builder

Integrated into the Charity Compassion Coin ecosystem resides the ability to build GIVE philanthropic based or general custom charitable givings anywhere globally.

The organizational system of this section gives access into each certain region of the world. Entering these regions gives a massive connection to daily media and news outlets to pick and choose from what is currently occurring in the world, to help solve these daily problems at hand, that otherwise seem helpless of untouched abilities to aid. The GIVE To World Regions Builder solves this seamlessly through the Charity Compassion Coin asset classification coin, blockchain technology, and a complete team effort of a hands on approach, ensuring any region in the world has the ability towards being healed rebuilt, and protected.

Charity Compassion Coin Storefront

Store Brand Plans

During the ICO phases as well as thereafter, the storefront capitalization and products are currently being produced. At the ICO end, the Charity Compassion Coin storefront live launch will then occur always to be updated and improved upon, with new interchanging added humane, ethical, sustainable and fair trade consumer products.

A full array of sustainable products will be of different categories as such:

1. Organic, sustainable, eco-minded hemp clothing.
2. Organic cotton-wear clothing.
3. Sustainable eco-friendly children's toys.
4. Sustainable eco-friendly self-care, house cleaning, and on-the-go products, such as water-filter straws, canteens, bags, and fair-trade items supporting rural and indigenous communities and families worldwide.

Charity Compassion Coin as well, is always open to personal customers contacting out to have a sustainable product added into the CCC storefront.

Charity Compassion Coin (CCC) News Media Channel

Each day daily, there will one or more news postings. These postings may range from literature based news articles, and or video feed news broadcastings, directly pertaining to worldly occurrences needing responses for charitable giving. This empowers you the interested charitable giver, with the day to day core occurrences taking precedence within our lives together, furthering and strengthening the ability to solve the needs for charitable giving globally.

Global Charity Hub

Categorized by four separate sections of precedence, this direct outlet brings forth a vast array of non-profit and foundational organizations, into a complete overall haul of internet based top accredited and verified causes, directly here to one transparent location. This helps solve with simplicity, the distance of denotable organizations and foundations, that may otherwise be lost through the spread of the entire IOT (Internet Of Things). Right through Charity Compassion Coin's ecosystem, we have built the layout of a complete overhaul access for seeking and obtaining your interest in a seamless ease of function for donating.

The overall summary here is that exploring and giving donates all through one funneling source here in Charity Compassion Coin's ecosystem section, the "Global Charity Hub", solves for the entire world, more often then not struggling efforts to make a simple trusted donation. By having to spend excruciating valuable time searching the internet for which is genuine and accredited and of interest to our personal individuality this discourages the self to walk away most times without giving any donation. Now we have provided the hard work and research for you directly and organized here in the CCC Ecosystem. Moving forward our databank hub will only grow and expand throughout time.

Charity Compassion Coin is always open to you the individual contacting us to have a reputable foundation or non-profit accepting donations, added here into the CCC Global Charity Hub. Contact us for further direct support and help today.

EXECUTIVE SUMMARY

Objective

We are a nonprofit organization focused on helping make the world around us a better, happier place.

With the help of blockchain technology we ensure governments/international powers, world regions, countries, cities, communities, neighbors and individuals that be, can recognize the ability of Charity Compassion Coin's ability to seamlessly integrate any size of needed humanitarian aid and relief funds.

These funds and aid are the needed miracles to succeed rebuilding even the most devastating issues at hand in the suffering world and human race globally.

Together we succeed these miracles step by step, moment by moment, until any and all global sufferings are healed and once again safe, back into stability.

Charity Compassion Coin is the tool for these miracles to be answered.

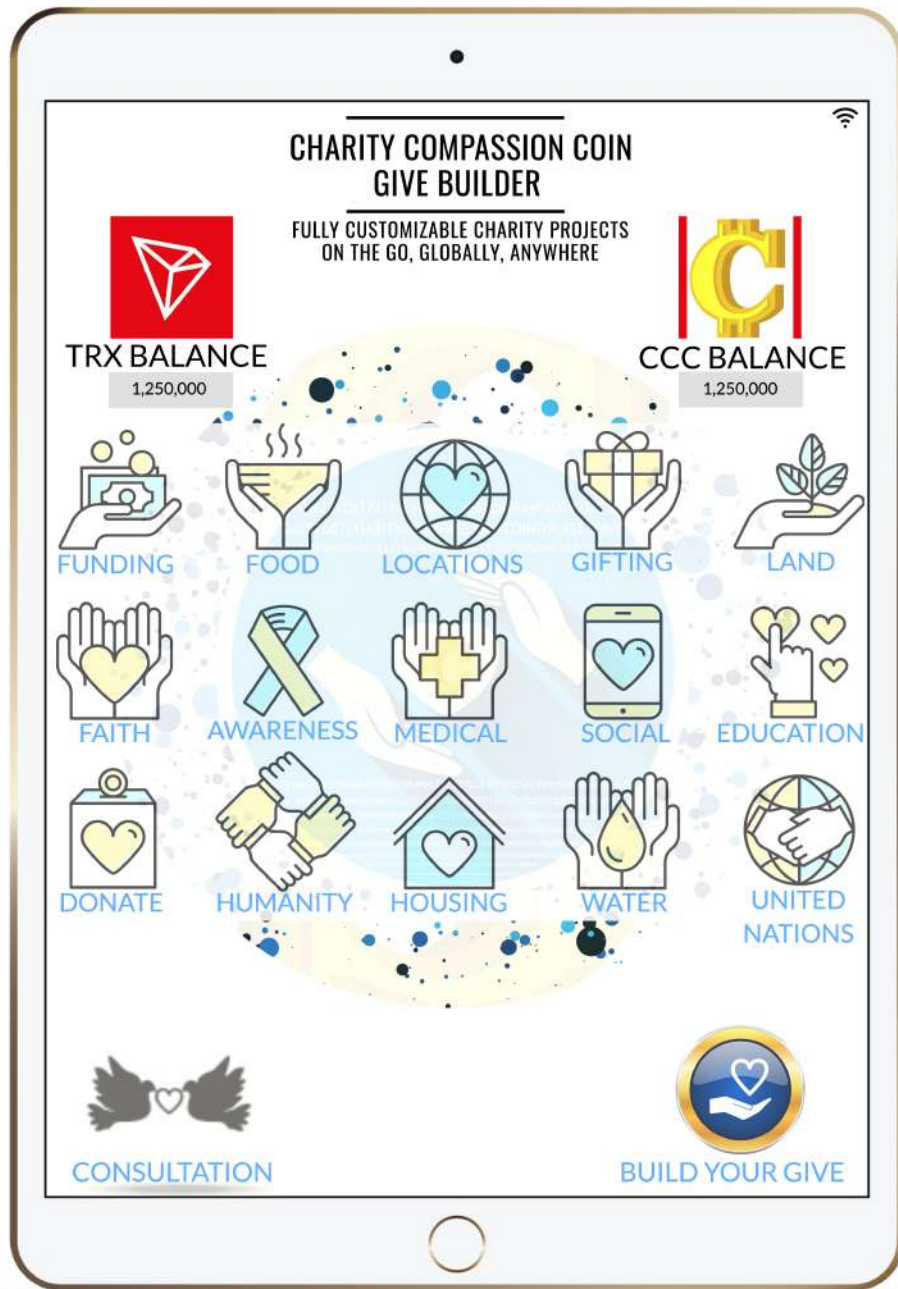

Goals

By 2019 and beyond for the long term, Charity Compassion Coin looks to be trading on the open market cryptocurrency exchanges, allowing an easy and fluid way of obtaining access apart from Charity Compassion Coin's direct IOT ecosystem. Capitals of the foundation will partly apply towards developments into mobile smartphone versions of MetaMask Beta Wallets integrated and living among etheneums ecosystem for the seamless transfers and next to no cost spending CCCs and GIVES into the GIVE Builder.

Succeeding the marketing levels remaining consistent always, to further develop the household name of Charity Compassion Coin within global approaches of fully customizable charitable and philanthropic givings. With the goal and succeeding prayer of integrating the global charitable marketplace onto the blockchain secure utility function, overall obtaining the ability to the asset protection of trillions of dollars universally at any time being moving daily and instantly for all charitable projects.

Solution

With the current distrust and mishaps in charitable funds and allocations among many charities and non-profits, Charity Compassion Coin gives the full truth and transparency of where funds for all charitable givings and humanitarian aid needs are being allocated to always at any moments notice. Charity Compassion Coin succeeds through the blockchain technology that we have all come to learn of and adapt and integrate into for the long term. Compassion today to prevail passionate giving.

Charity Compassion Coin GIVE Builder App

Innovative Technology Of Smart Charitable Giving! Trough TRON Foundation's Blockchain Technology!

Introduction

Charitable Giving through the un-hackable security of blockchain technology.

Compassion Yourself Today!

Charity Compassion Coin (CCC) is a charity foundation utilizing blockchain technology through the TRON.Network and TronScan.org online that is the home of the Charity Compassion Coin (CCC) cryptocurrency.

With the GIVE Builder found at the Charity Compassion Coin ecosystem: <https://CharityCompassionCoin.com>, any size of private/public philanthropy or Government humanitarian aid needs and projects may be created and fully customizable. Once created the charitable project smart contract and funding then enters the un-hackable blockchain to move anywhere globally where the project is taking place and succeeded by our team founders.

Charity Compassion Coin (CCC) and Tron (TRX)

The Charity Compassion Coin (CCC) cryptocurrency is housed within the new TRON Network blockchain ecosystem and will utilize free TRON TRX cryptocurrency as the transaction fee or fuel. With TRON's TRX TPS (Transactions Per Second) at amazingly fast speeds, with the lowest possible/next to no fee of transactions, no bank transfer or other crypto based network like Bitcoin or otherwise, can match TRON Labs technology. Securing a charitable project or humanitarian aid needs through blockchain transfer in the amounts of millions upon millions of dollars will only utilize a cost of mere pennies through TRON's Network.

Mission Statement

With the upcoming Charity Compassion Coin DApp concept for all Smartphones, the CCC “GIVE Builder“ app will allow anyone globally on the go to access TRON TRX and the Charity Compassion Coin cryptocurrencies.

The app then allows you to utilize, concept, build/create and launch the same fully customizable charitable and philanthropy projects that can be found through Charity Compassion Coin’s internet secure Giver Builder online.

With the CCC GIVE Builder app now your philanthropy based charitable project, government or any official of political body and the humanitarian relief project needs, are securely and at any moment succeeded.

Anywhere in the world at any time on the go.

This is the power of Charity Compassion Coin’s DApp and the TRON Labs Blockchain Technology allows and succeed for all of the world.

Compassion today's world, to save the world as it will be tomorrow.

Charity Compassion Coin CCC:

Charity Compassion Coin takes in charitable contributions into the foundation organization from private and public sources also.

Consistent operating function and performance expectation percentages: 115% consistently.

General/other expenses are distributed to ssh google cloud TRON project based node runnings and research, general Xfinity business servers charges and fees, along with general foundation site operating charges for hardware and server runnings with operating expenses included.

PLANS FOR HARDWARE EXPANSION

All hardwares are Apple macintosh based Mac Pro's all with 7 teraflops of computing power and 12gb GDDR5 VRams, Thermal Cores, and 802.11ac wi-fi connection capabilities. Processing powers: 8/12/32 core 3.9ghz each.

Internet network speeds are at the highest peak performance that is currently allowable through business internet speed buildout and access.

Dual-system backup, which is a factor of stability and data security performance.

Expansion plans: Multiple backup Apple Macintosh Mac Pro's for backup node runnings each with individual google cloud nodes built.

In addition to verifying the node, multiple full nodes can also be provided, which can provide better API services to others. According to above criteria, the content submitted by candidates will be scored appropriately, with a maximum score of 1 point. Each individual hardware machine is running individual self sustaining cloud and or bare metal based nodes in house.

Server location: Multiple IP's (IPs also may vary at times besides main-net witness based node). Server buildout is located in Northampton, Massachusetts, United States, and in Huntington Massachusetts, United States.

Server types: Xfinity based server provider for highest capably internet speed connections possible, and google cloud is host to node builds. Bare metal machines and cloud vm instances.

Sever configuration: Java8 until Java9 is stable: Ubuntu 16.04, 8 Core/12/32 Core/ 50gb to 1Tb, Http: Odyssey-v2.0.(Upgrades Stay Consistent). Config File stays consistently updated.

8 (Eight) Apple macintosh based Mac Pro's all with 7 teraflops of computing power and 12gb GDDR5 VRams, Thermal Cores, and 802.11ac wi-fi connection capabilities. Processing powers: 8 core 3.9ghz each, equalling 64 core. Upscale of each Pro may and will be maxed at 12-32 each in expansion long term.
